

Yes!
Medi-Cal
covers it.

VISION HEALTH SERVICES

Full-scope Medi-Cal covers vision health services.

Vision benefits include:

- Routine eye exam once every 24 months to check eye health and test for eyeglass prescription.
- Minors under 21 years old and some adults receive coverage for eyeglasses (frames and lenses).
- Other services are covered based on medical necessity.

The Community Health Initiative of Kern County can help you apply for coverage, find an eye doctor, explain covered services or answer any question you may have about your Medi-Cal coverage.

How do I access vision health services?

- 1** You can automatically access vision health services if you have a health plan under Medi-Cal.
- 2** Choose an eye doctor. Check the list on the back of this flyer for a list of doctors accepting Medi-Cal beneficiaries.
- 3** Make an appointment. Call the doctors office and schedule an appointment. Make sure to confirm that they continue to be a Medi-Cal provider.
- 4** Go to your appointment. Take your ID and Medi-Cal card to ensure that you are not billed incorrectly for services.

OPHTHALMOLOGIST	OPTICIAN	OPTOMETRIST
<p>Ophthalmologists are physicians (Doctor of Medicine (M.D.) or Doctor of Osteopathy (D.O.)) who focus in the comprehensive care of the eyes and the overall visual system in the prevention of eye disease and injury. The ophthalmologist is the medically trained specialist who can deliver total eye care: primary, secondary and tertiary care services (i.e., vision services, contact lenses, eye examinations, medical eye care and surgical eye care), and diagnose general diseases of the body.</p>	<p>Opticians are optical professionals who fill prescriptions, issued by ophthalmologists and optometrists, for corrective eyewear. These prescriptions may include eyeglasses, contact lenses, low vision aids and ocular prostheses.</p>	<p>Optometrists are healthcare professionals who are state licensed to provide primary eye services. These services include comprehensive eye health and vision examinations, diagnosis, and treatment of certain eye diseases and disorders of the eye as well as the diagnosis of certain related systemic conditions. Treatments may include the prescribing of eyeglasses, contact lenses, low vision rehabilitation and medications, and the performing of certain minor surgical procedures.</p>
